## Nurse Mommy

Loving my life as mommy, nurse, and wife!

Okay, so you are a mom. Don't you just love how it seems like just because you are a mom you are supposed to give up all your style. There are ugly diaper bags everywhere! Its like they just want you to throw it all down and adopt the "mommy" fashion trends and Lord forbid, wear MOM PANTS! Ughhh! If you are like me you are not willing to let that happen and will be looking for something to carry all your babies' necessities while still being fashionable!

**Cricket and Monkey** has solved that problem for you! They have the cutest bags that are still very fashionable! When I pulled my bag out of the box my first word was WOW! It got the Cleo Metallic Messenger bag and let me tell you..if it weren't for the size of this thing I would think it was made for club hopping! It is shiny, bright and CUTE! What makes it even better is that there is PLENTLY of room to hold all of those baby necessities and then some!

Head on over to **Cricket and Monkey** and take a look around! I am sure that there is something that will definitely strike your fancy!

## Cricket & Monkey, delicious diaper bag no. 7

November 20th, 2007

All of the diaper bags on our "delicious diaper bags" week (and a half) are truly delicious but only one is truly, and I mean truly, fun. That would be the [Taylor Weekender](#) from [Cricket & Monkey](#). More specifically, the Taylor Weekender in the Monkee print. You may be old enough to be an adult but that doesn't mean your diaper bag has to make you look like one!

Cricket & Monkey's Taylor Weekender is available in five prints. Go with Geo Pink, Geo Blue, or Chocolate Poppy if you'd like to act your age, but I say choose Monkee or Skulls & Roses if you want to feel young again (and who doesn't?). If something makes me smile the minute I pull it out of the package I know

it's a winner, and this bag did just that. I kept on smiling as I tried out the nice and wide padded strap and checked inside for pockets (seven total with a large zippered compartment, cell phone pouch outside (always a yay in my book), and two bottle pockets inside. And if you've been keeping track, this one has metal feet. Yep, big smile on my face!

The [Taylor Weekender](#) also includes a karabiner key ring (i.e. detachable) and changing pad. The body is cotton (a.k.a. cotton with totally fun prints) and PVC (i.e. wipeable and water resistant) and the lining is 100% nylon. The bag itself is 100% fun! [Cricket & Monkey](#) has made diaper bags "as cheerfully fashionable as they are practical." (i.e. Spelling!) -

### Featured Review: Cricket & Monkey - A celebrity favorite

By Teba, CBB Reviewer

If you see a really hot lady and her little girl walking down the street carrying what looks to you like the most rockin' bag ever...well, you've found me! All joking aside, I am in love with my new [Taylor Weekender](#) bag in [Skulls & Roses](#) print from [Cricket & Monkey](#). It's the perfect bag for this mom of a toddler and I think that you'll love it too.

Also from [Cricket & Monkey](#) is a great line of [baby blankets](#), including the [bubble dots](#) blanket which was featured in [US Weekly](#) when [Tori Spelling](#) and husband [Dean McDermott](#) first introduced their little boy [Liam](#) to us.
